

Baldwin Wallace University
Student Learning Outcomes for Post-Baccalaureate & Graduate Programs

Students in all Baldwin Wallace graduate and post-baccalaureate programs strive to acquire knowledge and skills that extend far beyond that attained at an undergraduate level. Specific learning outcomes for all programs are below.

Application of Knowledge

BW graduate and post-baccalaureate students will apply disciplinary knowledge and skills characterized by a comprehensive conceptualization of their field of study.

Ethical Reasoning

BW graduate and post-baccalaureate students will exhibit and apply the appropriate ethical standards of their field of study.

Data Literacy

BW graduate and post-baccalaureate students will demonstrate data-driven, analytical thinking relevant to their field of study.
