

Undergraduate Learning Objectives for the BW Advantage Competency Curriculum 2024-2025

ULO 1 Effective Communication: Write persuasively, with correct grammar and syntax; employ effective oral or digital communication.

ULO 2 Critical Analysis: Analyze abstract language or forms; decode meaning; identify perspective of creator, influence of context, or intent; evaluate arguments for validity; and construct sound arguments.

ULO 3 Quantitative Literacy: Employ mathematics or quantitative analysis to solve disciplinary problems.

ULO 4 Civic Literacy: Students will articulate a sense of civic identity and how it is shaped by political, social, religious, moral, ethical, and/or historical contexts of democratic development and engagement; students will demonstrate civic knowledge and skills needed to become ethical, informed, and engaged members of their communities through reflection on civic contexts, the effective use of information, or the application of a disciplinary lens to address enduring civic issues.

ULO 5 Multicultural Literacy: Demonstrate understanding of our global human heritage and cultural diversity.

ULO 6 Scientific Literacy: Critically analyze and draw conclusions from scientific evidence to make informed decisions grounded in the physical, natural, or behavioral sciences.

ULO 7 Wellness: Demonstrate an understanding of the relationship between personal behaviors and life-long health and wellness.

ULO 8 in Creative Arts: Identify the basic features of works from a creative art and demonstrate understanding of the cultural/historical context of such works, as applied through analysis, performance, and/or creation.

Implied ULO in Career Development: Develop career-related skills.
